2. To allow each of my company's bottling plants to be inspected annually by a private, independent inspection agency, approved by IBWA for the purpose of determining whether said plant(s) meets the minimum sanitation and drinking water safety standards of bottler membership as adopted by IBWA.

For any plant(s) whose initial annual inspection indicates that it fails to meet said sanitation and drinking water safety standards of bottler membership, to demonstrate compliance at my company's expense through a re-inspection, if determined by IBWA to be necessary, or other means of demonstrating compliance to occur within 30 days of notice from IBWA that said plant does not meet the aforesaid standards of bottler membership.
4. That final approval of my application or renewal for bottler membership and continuation of said membership thereafter from year to year shall be contingent on (a) allowing the annual plant inspection and any re-inspection or other appropriate follow-up means of demonstrating compliance determined to be necessary by IBWA, as required by paragraphs (2) and (3) herein; (b) obtaining and maintaining thereafter the necessary passing score for said inspection or any necessary re-inspection in accordance with IBWA's standards of bottler membership, and (c) compliance with all other provisions of IBWA's Bylaws published in the IBWA Roster.
