

2020 IBWA BUYERS' GUIDE

IF YOU'RE IN THE BOTTLED WATER BUSINESS, THIS IS THE ONLY LIST OF SUPPLIERS YOU'LL EVER NEED!

This year has been unique in many ways, not the least of which is the fact that numerous trade shows planned for the first half of 2020 that cater to the bottled water industry were canceled following stay-at-home orders implemented by many states trying to flatten the curve on the spread of COVID-19. So, perhaps more than ever, IBWA's Buyers' Guide can be the resource you turn to when looking to connect with suppliers that are knowledgeable about the bottled water industry.

The 2020 Buyers' Guide presents a list of IBWA supplier members and the innovative and essential products/services they offer. IBWA suppliers are invaluable to this association. They show their commitment to this industry by not only paying membership dues but also, and most importantly, actively participating on IBWA committees. IBWA supplier members invest in learning about the issues bottled water bottlers face—and then strive to find ways to help you overcome those challenges.

Polymer Solutions International (PSI®) is a leading global supplier of material handling products serving diverse industries including food & beverage, pharmaceutical, industrial, retail, and general purpose. PSI® specializes in engineering and manufacturing innovative solutions for a variety of applications that improve supply chains, reduce costs, and protect products.

PSI's ProStack®, TierStack®, and UpRight™ plastic modular rack systems are the racks of choice in the industry to warehouse, transport, and distribute 3-, 4-, and 5-gallon bottles in home, office (HOD) and retail by providing solutions needed for bottlers to extend their global reach to deliver clean drinking water.

PSI's rack systems will significantly reduce bottle leakers and extend bottle life. The company's modular design will improve payload by offering various layer handling configurations, maximize plant efficiency and are used in both manual and robotic loading.

Additional popular products include: Bottle-Up® (plastic display rack to store bottles in a home, office or retail environment); Bottle Hammock™ (a safe flexible system for volume delivery/retrieval of full or empty bottles); and a complete line of reusable plastic pallets, including Nestable Distribution Pallet, Double Leg Ratchet®, ProGenie®, and ProTech™.
