

Emergency Response Directory

Produced by,

Emergency Response Directory

Introduction

The International Bottled Water Association (IBWA) recognizes the critical need for safe and plentiful drinking water in the event that tap water or other water service is disrupted during a natural or man-made emergency (e.g. floods, earthquakes, hurricanes, and terrorist attacks). It is essential that drinking water, food, and other critical supplies directly reach those who need it most. However, in order for these supplies to arrive at the correct location in a timely fashion, and to satisfy the needs of a specific community, companies that wish to provide bottled water to affected areas must have contact points to determine specific needs and establish logistics for the delivery of this lifesaving cargo.

Following Hurricanes Katrina and Rita in 2005, and the massive outpouring of bottled water aid to survivors in these communities, IBWA formed the IBWA Emergency Clearinghouse Working Group. The purpose of this working group was to develop a plan so that emergency bottled water supplies may be quickly and efficiently donated to those who need it most. The Working Group has prepared this Emergency Response Directory (ERD), which provides IBWA members and other interested parties contacts at the federal, regional, and state levels. This Directory contains a list of organizations and government agencies responsible for emergency response activities, so that IBWA members and other interested parties may successfully navigate the proper channels and help provide bottled water and other resources to those in need.

When calling the resources listed in this directory, it may be helpful to ask to be connected to someone who deals with donations for water or food.

IBWA will work to update this document on a regular basis and welcomes corrections and/or additional listings. The ERD will also be posted on the public portion of the IBWA web site (www.bottledwater.org) and provide direct web links to relevant agencies and organizations, where possible.

To provide updates, corrections, or additional information, please contact IBWA Communications Manager Tom Gardner at 703-647-4607 or tgardner@bottledwater.org.

Please note: This guide lists agencies and organizations that can be contacted to provide bottled water supplies for donation or compensation as may be arranged directly with contacts established. The Federal Government is currently under contract to purchase bottled water from one company during federally declared emergencies. However, in the event of a major emergency and increased demand, governmental agencies may reference its list of contractors to provide additional supplies. Please visit <http://www.fema.gov/business/market.shtm> for more information about the Federal Government's Central Contractor List, GSA Schedule, and other ways to register as a government contractor.
